# TRIANGLE VISUAL ARTISTS ON THE MOVE

### About Triangle Visual Artists

Triangle Visual Artists evolved as a community of artists presently themselves as a collective in a virtual space. We are a diverse group that works closely together as a team to identify and approach different venues for opportunities to share our work with the public. We work in a range of mediums including photography, oil, water color, hydro-printing on silk, mixed media, fiber. Our work covers the gamut of mediums from realism to impressionism to a more expressionistic style; it includes work that is more iconic or symbolic or abstract.

To find out more about our group see our website: <http://trianglevisualartists.com>
